Authors

Bell, Albert T.....115
Bly, Leon W.....169
De Sabla, E. J., Jr.....39
Everest, A. R.....173
Fry, Donald H.....125, 128, 163
Hutton, C. W.....37
Jones, Philip Mills, M. D.....117, 132
Knight, Samuel N.....32
Low, Geo. P.....1
Martin, Jno.....41
McGhie, J.....18
Perrine, Dr. F. A. C.....84, 98
Rix, E. A.....95
Sprout Sidney.....93
Steinmitz, Charles Proteus.....104
Stuart-Smith, W.....29, 56
Sutcliffe, E. W.....40
Theberath, Theo. E.....34
Van der Naillen, A.....78
Wurts, Alexander Jay.....77

Editorial

An Electrical Regiment.....160
An Instance of Electrical Vagary.....136
Are News Notes Wanted?.....120
A Word of Caution.....30
Concerning Electrical Charletans.....101
Electricity and the Press.....62
Fatalities from Low-Volt Shocks.....103
Give Honor to Whom.....180
He Wins the Second Prize too.....135
It will be Welcomed.....23
Proof Positive of a Great Circulation.....121
Standard Electrical Diagrams.....120
Station Switchboards.....102
The Blue Lakes Plant.....22
The Lining of the Rainless Clouds.....135
The Salesman of the Future.....182
The Tendency of Electrical Progress.....80
The Truth, but not the Whole Truth.....61
Transmission at 30 000 volts.....44
Two Sister Sciences.....60
Wheels Within Wheels.....45
Where Theory Failed.....22
Working Our Way Abroad.....60

Educationial

*Alternate Current Workings, by Donald H. Fry.
Part I—Alternating Currents.....125
Part II—Polyphase Currents.....123
Part III—The Calculation of Polyphase Circuit Functions.....163

PAGE

Electro-Economics

*A Storage Battery Wattmeter.....167
Central Station Switchboards, by Dr. F. A. C. Perrine, 98
Determining Meter Rates.....24
*Some Station Wrinkles.....49
Part I—How Mount Lowe is Climbed.....50
Part II—The Saving of Oil.....51
Part III—Water Rheostats.....52
Part IV—Compressed Air.....53
Part V—Miscellaneous.....55
The Gain in Using Latest Transformers.....80
*Transformer Regulation, by A. R. Everest.....

Electro-Therapeuty

Accumulators in Dentistry.....63
*A Large Electro-Magnet for Oculists Use, by Philip Mills Jones, M. D.....117
On the use of Electric Current from Central Stations, Philip Mills Jones, M. D.....183
Recent Uses of Electricity in Medicine, by Philip Mills Jones, M. D.....132

Fraternal

Constitution and By-laws of the Transmission Association.....105
The Electric Transmission Association at Sacramento..47
The Transmission Association.....88
The Transmission Association.....105

Gas

Acetylene and Transmission Interests.....77
A Fraud Upon Electricity, by Sidney Sprout.....93
Insurance Restrictions on Acetylene.....24
The Explosiveness of Acetylene.....17

Historical

Reminiscences of Early English Stations.....82
*The Brush Power Plant in the Chollar Shaft.....71
The First Central Station.....81

Hydraulics

An Electro-Hydraulic Analogue.....62
Computing the Girard Governor.....24
Hydraulic Problems, by W. Stuart-Smith.....29
*Inertia in Governor Mechanisms.....66
Water Wheel Regulation, by S. N. Knight.....32

Illumination

An Invaluable Book for Lamp Users.....107
An Oxidation Resisting Arc Carbon.....62
*A Perfected Enclosed Arc Lamp.....167
*A serviceable Lamp Guard.....88
*A Successful Alternating Arc Lamp.....48
Determining Meter Rates.....24

Pat 38

PAGE

Edison Lamps for Isolated Plants.... 107
*Electricity on a Light ship.. 119
*Electric Power with Lighting as an Adjunct.....140
*Enclosed Alternating Current Arc Lamp.. 67
Novelties in Incandescent Lamps.....143
*Something New in the Pump Line.....123
*Specialties in Incandescent Lamp Shades.....108
*The New G. E. Enclosed Arc Lamp.. 144
The Efficiency of Illuminants.....45
The Waning of the Welsbach.....121

Industrial

A New Electric Supply House.....88
*A New Line of Small Motors.. 143
Mr. J. W. Brooks Retires.....167
New Agencies for the Coast.....26
Organ Blowing by a Rotary Fan.....88
What is "Kip?".....143

Literature

"A Pocket Dictionary of Electrical Words, Terms and Phrases," by Edwin J. Houston, Ph. D.....137
"Manual of Static Electricity in X-Ray and Therapeutic Uses," by S. H. Monnell, M. D.....138
"The American Newspaper Annual".....138
"The Treatment of Disease by Electric Currents," by S. H. Monnell, M. D.....182

Mining

*A Successful Mine Hoist.....25
Electricity in Mine Haulage.....68
Electricity in Mining.....131
Electricity in Mining, Part II.....176
*Platinum in Gold Placer Deposits.....59
Sand Power for Mining Purposes.....161

Miscellany

Alaska as it is.....159
*A Prony Brake Experiment.....74
Consolation.....166
*Electricity at the Trans-Mississippi Exposition.....27
Electricity on a Modern Warship.....160
European and American Practices, by J. McGhie.....18

Passing Comment

An Exceptionally Excellent Edition.....121
A Number Without Illustrations.....45
A Charge in a Contemporary.....103
Coal at Five Cents a Pound.....161
Pure Politics, then Public Ownership.....65
Success in Advertising.....45
The Engineering of the Blue Lakes Plant.....46
The "Kilovolt-Ampere".....103
There's No Experiment About It.....46
Wanted, A Name.....137

Personal

Addison, Dr. Thos.....36
Baird, M. E.....87

Stuart-Smith, Lieut. W.....159
Thompson, John West.....87
Van der Naillen, Prof. A.....142
Vineing, Henry E.....106
Wybro, H. C.....87
Young, C. S.....26
Zijima, Zentaro.....141

Pneumatics

An Electro-Pneumatic Transmission.....58
*Compressed Air at the Gwin Mine, by E. A. Rix.....95
*Compressed Air in Central Stations.....53

Steam

Steam in Future Central Stations.....136

Telegraphy

The Infancy of the Telegraph.....43
Wireless Telegraphy at the Omaha Exposition.....117

PAGE

Transportation

A Chapter on Micanite.... 48
Centralizing Railway Power Stations..... 23
*Details of the Mount Lowe Railway.. 130
Flooding an Electric Conduit Road..... 65
*How Mount Lowe is Climbed.... 50
Polyphase Motors in Railway Works, by Charles Pro-
*Supplanting Steam With Electric Traction.... 78
teus Steinmitz.... 104
The Mountain Railways of Switzerland, by A. Van der
Naillen.... .... .78
The New Problem in Transportation... 46
The Third Rail System in a Snowstorm.... 159
Three-Phase Traction..... 65

Transmission

An Answer to Mr. Sutcliffe's Inquiries, by Alexander
Jay Wurts.... 77
An 110-Mile California Transmission... 134
*A Sierran Transmission, by Geo. P. Low.
Part I.—The Water Supply.... 1
Part II.—The Canal System.... 3
Part III.—The Pipe Line..... 4
Part IV.—The Power House.... 6
Part V.—The Hydraulic Plant..... 7
Part VI.—The Electric Plant.... 9
Part VII.—The Amador Circuit.... 12
Part VIII.—The Calaveras Circuit.... 14
Part IX.—Financial..... 16
Part X.—Personal..... 17
A treatise on Lightning Arresters..... 168
Builders of the Blue Lakes Plant..... .... .28
.*Electric Power in Large Units.... 122
*Gruesome Evidences of a "Hot Time" on the Old Line.69
*Imperial Porcelain Insulators.... 27
Insulators for Transmission Lines, by Jno. Martin.. ..41
Lightning and Long Transmission, by E. W. Sutcliffe..40

PAGE

Lightning at Sacramento, by C. W. Hutton.... 37
Lightning in Nevada County, by E. J. De Sabla, Jr.....39
Lightning on Transmission Lines, by Theo. E. Theber-
ath, M. E..... 34
*"Locke" High Potential Insulators.. 107
Measuring Three Phase Currents..... 161
Progress of the Niagara-Buffalo Transmission.. 116
Properties of High Potential Insulators, by Albert T.
Bell..... 115
Representative of its Best Practices.. 57
*Some Experiments at 30,000 Volts.... .... .162
*Some Transmission Practices—
Part I.—Synchronizing Two-Phasers.... 70
Part II.—An Historic Transmission.... 71
Part III.—Changing Insulators on Live Wires 73
Part IV.—A Prony Brake Experiment.. 74
Part V.—A Novel Lightning Arrester..... 75
Part VI.—A Multi-Glaze Insulator.... 76
*The Burning of High Potential Pins, by W. Stuart
Smith.... 56
The Making of Porcelain Insulators, by F. A. C. Per-
rine, D. Sc..... .... .84
*The Newcastle-Sacramento Transmission... ... ... .80
*The Pioneer Power Transmission.. 109
*The Provo-Mercur 40,000-volt Transmission, by Leon
W. Bly.... 169
The Three-Part Insulator Patent..... 123
*The Yuba-Marysville Transmission.... 145
Part I.—The Pole Line.. 146
Part II.—At the Power House.... 148
Part III.—The Electrical Equipment.... 149
Part IV.—Going over the Water System.... 152
Part V.—The Water System.... 155
Part VI.—The Hydraulic Equipment.... 157
Part VII.—Personal and Financial.... 157
Part VIII.—Engineering Data.... 158
Three Colossal Generators.... .... .44
